

Welcome to 2009-2010, the year of enVision Math. You will find most of the components of the program in your room ready to use. Please check the list below to see what components should be in your classroom. If they are not there, they will be forthcoming. Numbers are based on an average at each grade level. If you have more than the average, please let us know ASAP so that we are prepared for the Williams Review Team. At grades K-2, they will only be looking at the number of your consumable packets; at grades 3-5, they will only be looking at the number of textbooks. Thank-you so much for your patience.

K-2

- 24 consumable packets
- 24 sets of individually-packaged manipulatives student labeled inside and out
- teacher box with all topics and accompanying pouches
- 1 student edition CD
- **Big books did not arrive with the order

Grade 3

- 24 student textbooks
- 24 sets of individually-packaged manipulatives, student labeled inside and out
- teacher box with all topics and accompanying pouches
- 1 student edition CD

Grade 4

- 34 student textbooks
- 34 sets of individually-packaged manipulatives, student-labeled inside and out
- 1 teacher box with all topics and accompanying pouches
- 1 student edition CD

Grade 5

- 32 student textbooks
- 32 sets of individually-packaged manipulatives, student-labeled inside and out
- 1 teacher box with all topics and accompanying pouches
- 1 student edition CD

***Interactive homework books did not arrive with the order.

Teacher Name _____ Teacher grade _____

I will need _____ more packets and manipulatives.

I will need _____ more textbooks and manipulatives.

_____ I have all of my components.

_____ I do not have my bags of manipulatives.
